# YOUR 2023 GUIDE FOR CONSTRUCTION PROCESS DIGITIZATION

As the leading provider of process automation tools to construction and engineering firms, FlowForma has compiled this infographic based on industry research and customer insights. This guide will support you as you kickstart your digital transformation journey with best practice digitization tips. Explore how the no code FlowForma Process Automation tool fast-tracks construction process digitization, to empower mobile workers, remove paper and reduce costs.

## HELPING YOU OVERCOME COMMON PROCESS CHALLENGES

### Improving Safety

**59%** of construction executives say improving safety is the #1 business outcome that is absolutely required in their company's project workflow. *FlowForma customers are supporting safety initiatives by creating standardized processes with increased visibility.*

### Removing Paper / Manual Processes

**72%** of survey respondents say that 26% to 75% of their companies' business processes are managed on paper, email or spreadsheets. *FlowForma customers are bringing their paper/manual processes online at scale with no code process automation.*

### Improving Operational Efficiency

**87%** of participants are challenged by project deadlines and tight budgets. *Replacing manual processes with automated workflows streamlines and fast-tracks business operations. Automation reduces human error which improves project efficiency.*

### Managing Suppliers / Subcontractors

**33%** of construction workers have difficulty engaging with external parties. *FlowForma Engage empowers users to engage with external users in processes to improve communication experiences.*

### Difficulty Recruiting IT Resources

**40%** of respondents state that difficulty recruiting IT talent is a large obstacle to digital transformation. *FlowForma's no code tool empowers business managers to seamlessly deploy and manage business processes, without any coding*

### Lack of Visibility

**35%** of participants said that they were unable to generate a single overview of business processes. *FlowForma reporting enables users to create various reports on their business processes.*

*Stats based on 2022 Construction Dive Survey Commissioned by FlowForma.*
