

YOUR 2022 GUIDE FOR CONSTRUCTION PROCESS DIGITIZATION

As the leading provider of process automation tools to construction and engineering firms, FlowForma has compiled this infographic based on industry research* and customer insights. This guide will support you as you accelerate out of lockdowns and lock-in on digitization. Explore how the no code FlowForma Process Automation tool fast-tracks construction process digitization, to empower mobile workers, remove paper and reduce costs.

HELPING YOU OVERCOME COMMON PROCESS CHALLENGES

Removing Paper/Manual Processes

69% of construction decision makers tell us they want to bring paper process online. *FlowForma customers are achieving this at scale by empowering their business-people to digitize.*

Poor Visibility On Site

37% of survey respondents say they have problems accessing task info on-site. *FlowForma customers are empowering employees with data via the FlowForma mobile app.*

Managing Suppliers/ Subcontractors

35% of construction workers face restricted communication with staff, customers/suppliers. *FlowForma users engage external users in processes to improve experiences.*

Project Overruns

69% of organizations have been impacted by project overruns in the past 12 months. *FlowForma users avoid project overruns as they have access to up-to-the-minute project data, giving them the ability to react quickly and solve issues immediately.*

BIM Compliance

36% of construction managers would benefit from a tool to help them with BIM compliance. *The FlowForma Governance App supports becoming BIM compliant, by developing standardized processes across new projects.*

Barriers To Change

23% of participants believe a perceived lack of skills prevents their organizations from moving processes online. *Discover rapid adoption with FlowForma Process Automation, its friendly user interface requires minimal training and offers premium support.*

*Stats based on 2020 Construction Online Survey Commissioned by FlowForma Process Automation
