

Learning With FlowForma

Speed Up Your Learning

The FlowForma Process Automation tool is designed to be configured by the people who understand your business needs. When it comes to learning in the FlowForma Process Automation tool, there are many different options available.

We understand that not everyone has the same amount of time available, current knowledge level, or even learning style. With this in mind, we have come up with various training methods to suit everybody's needs. Whether it's a 2-day training course in a classroom with an instructor, a self-paced training video in our FlowForma Academy, or reading our documentation material, we have you covered.

Below are the available options for you to choose from.

2-Day Training Course

Overview

The 2-day training course will cover everything you need to know to get you started creating your processes in the FlowForma Process Automation tool, it covers the creating of flows, steps, questions, rules, document generation and much more.

Level of Knowledge Required

No FlowForma Process Automation knowledge or experience is needed to take this course.

FlowForma Academy

Overview

In the FlowForma Academy you will find many different video courses, that will break down the functionality of our features covering them from top to bottom. These videos can be used as an introduction to a new topic or be reviewed when needed as you go and will enable you to get started when working with a new feature or seeing how to implement certain questions and rules.

Level of Knowledge Required

No FlowForma Process Automation knowledge or experience is needed to get started, and videos vary in difficulty as you go.

Webinars

Overview

We run webinars on a frequent basis that cover different topics, these are ran in a more "teaching/learning" manner, not so much a demo/sales pitch, this is similar to how the videos in the academy work with the added bonus of a Q&A session at the end so you have the opportunity to ask questions where you struggled or would like more information on.

Level of Knowledge Required

Everyone is welcome but not all topics may not be relevant to everyone, but certainly worth keeping a lookout for what is being covered.

Online Documentation

Overview

If you prefer to read over watching videos, we have documented all the different functionality of FlowForma Process Automation, from license renewals to individual questions types and rules. You will also find how various how-to guides that will help you complete your processes.

Documentation can be used as your first stop to finding out additional information about any aspect of FlowForma Process Automation.

Advisory Support Contract

Overview

If neither the videos or documentation suits your learning style, and you'd prefer to work side-by-side with a FlowForma Analyst, purchasing an "Advisory Support Contract" may be the solution, this will allow you to arrange support calls to go through problems you are experiencing, and get some advice of how to do it, it can also be used to "sense check" requirements and get some information on best practices. This is best used in situations where you are generally ok to build flows by yourself but would like assistance if/when any roadblocks appear.

Who's using FlowForma Process Automation?

From healthcare bodies to professional services companies, FlowForma has developed a strong customer base across Ireland, the UK, Europe and North America.
