User onboarding

1 Initiation & Planning
SureStart Kick-Off

7 Post Go-Live Review & Next Steps
Customer success

The SureStart Routes

Option #1:
Self-Driven (Standard)

- Focus on enabling business users to become self-sufficient (ready to build their own processes)

- Product Training & Certification upfront

- Customer builds the first process

- Weekly coaching, best practice advice & guidance sessions (from our experts)
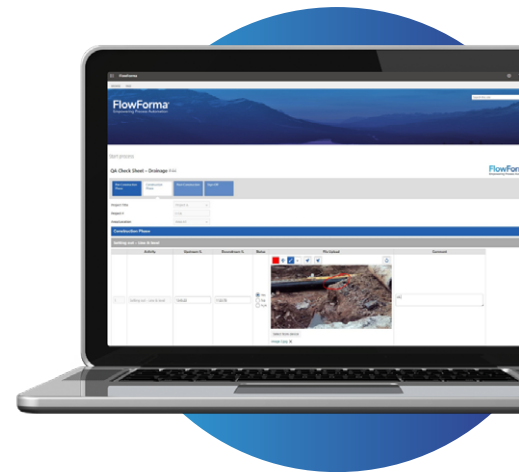

Option #2:
Chauffeur-Driven

- Customer leverages FlowForma experts to build the first process

- Priority is to get the first process live quickly

- Training and enabling business users to become self-sufficient post-go-live

Guidance For Choosing 1st Process

A **small** to **medium** size process is recommended for SureStart

Bring your first business process live within 4 to 6 weeks to:

- ✓ Demonstrate a rapid return on investment

- ✓ Empower your business to automate more

- ✓ Accelerate digitalization demand across the business
