

SureStart

Accelerate Your Time To Value

Our SureStart onboarding program is designed to enable new customers automate their business processes quickly and easily, using our unique no code FlowForma Process Automation tool. With the support of our FlowForma experts, we help you deliver your first business process live within 3 to 4 weeks.

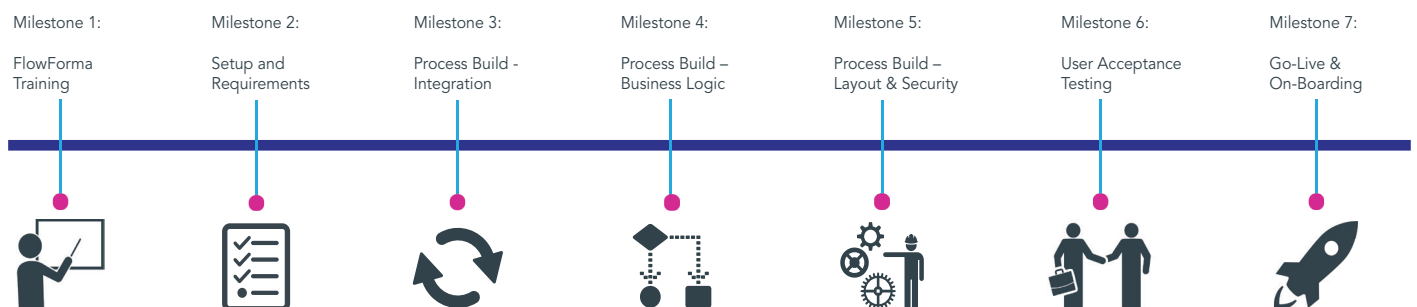

Led by one of our FlowForma experts, we take you through the onboarding process step by step and help get you up to speed quickly. After bringing your first process live, you will be ready to start adding additional processes on your own, driving further adoption and increasing the return on your investment.

The onboarding program begins with a 2-day virtual training course, where you will learn how to use FlowForma Process Automation and gain a hands-on experience building processes. Following training, our FlowForma expert will guide you through defining your requirements, installing and configuring FlowForma Process Automation, implementing your process, to User Acceptance Testing and Go-Live. All this in a matter of weeks, and you'll be surprised how quickly additional processes can be added thereafter.

Our experts have vast experience successfully onboarding customers across multiple industries globally and are committed to delivering a high-quality onboarding experience. We work closely with you to deliver working processes iteratively, so results are visible early and the end solution better meets your needs.

The SureStart approach

We take you step by step through each stage of the onboarding process.

The FlowForma SureStart program includes:

- ✓ Product training for up to 3 users
- ✓ Up to 6 days consultancy to get a minimum of 1 process live
- ✓ Best practice implementation guidance and support
- ✓ Dedicated expert throughout the program

**Workshops are conducted virtually and typically last 2 to 3 hours.*

Why FlowForma Process Automation?

- Eliminates the need for writing code
- Forms, workflow, document generation and collaborative decision-making in one integrated toolkit
- Integrates with Office 365 delivering flexible, agile and mobile business process management
- Seamless integration with 3rd party systems
- Enables power users to manage their own processes
- Provides clear visibility of the process from beginning to end
- Permits easily accessible information for reporting
- FlowForma's app for Microsoft Teams empowers you to instantly access processes awaiting your input
- A more cost effective solution than software development services
- The FlowForma Mobile App enables users to complete steps while on the move
- No need for full SharePoint licences/eCALs
- Enable external parties to input into your business processes with FlowForma Engage
- FlowForma Connect empowers you to connect FlowForma Process Automation to hundreds of other systems
- Design and build processes that can be fully certified to meet regulatory requirements

About FlowForma

FlowForma, the leading provider of Process Automation tools for Microsoft Office 365® has been revolutionizing the traditional BPM space with an innovative approach to developing award winning products that empower users to create and streamline processes smarter and faster, utilizing the familiar SharePoint platform, without any coding.

FlowForma is a Gold Microsoft Partner, with over 200,000 users across Europe, America, and Asia. The company is headquartered in Dublin with offices in London and Boston and is motivated by its values to innovate, evolve, and achieve with employees, customers, and partners.
